SC1000 Speedometer

## SC1000 Gauges

# Better boating made easy

Instant, reliable vessel information in a clean, easy-to-read package is only a glance away with the Mercury SC1000 gauge. The marine industry's most advanced gauge displays up to 42 engine functions to give you essential data in one central place, so you can spend less time monitoring your engine and more time enjoying the boating experience. When combined with additional sensors, Mercury digital gauges are powerful tools that provide safety and comfort while on the water. Available in black, white and gray faces with black, white and chrome bezels.

SC1000 Tachometer
